# MANAGEMENT

---

Fission understands the importance of supplying the best managers for our clients' projects. Whether the client is looking for a manager for a large or small scale project it is important to identify candidates with the relevant skills, qualifications and experience to drive their business forward. We conduct thorough searches in order to pinpoint the highest calibre of candidates and only ever put forward individuals who we believe will benefit your project.

Management Positions we recruit include:

- Commerical management
- Project Management
- Planning
- Economists
- Project Direction
- Programme Direction
- Programme Planning
- Planning Management
- Associate Directors
- Non-Executive Directors
- Engineering Management

# PROJECT MANAGEMENT

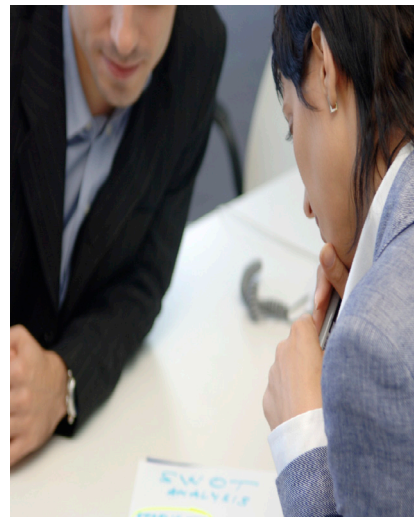

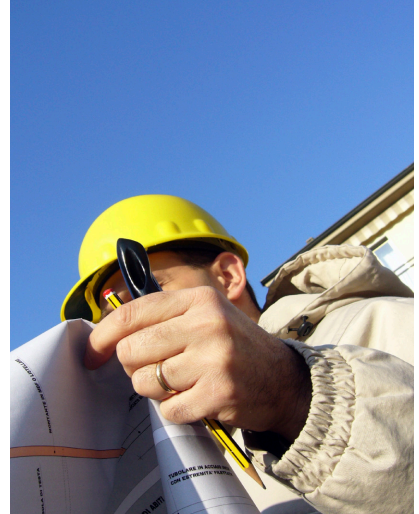

---

Project Management requires the ability of planning, a high standard of organisational skills and management skills to ensure correct resources are used. Project Managers are required within many of the sectors using their skills and to manage and organise a process to finish a project and work with all involved.

We are able to supply both technical and non-technical project managers across out specialist sectors.

Examples of roles we recruit for include:

- Commercial Management
- Economics
- Planning
- Change Management

# COMMERCIAL MANAGEMENT

---

Fission sources top calibre candidates for our commercial management vacancies. Combining our knowledge of the built environment with our state of the art recruitment techniques allows us to meet even the most demanding requirements of our clients. We spend time finding the right candidates to save our clients time and ultimately improve their business.

Commercial Management focuses on the management of non-technical elements of commercial business. This involves bidding activities and follow-on involvement in the subsequent contract negotiations, contract and related sub-contracts, with assistance as necessary. As well as involvement in the subcontractor selection process including negotiation of sub-contracts in and export environment.

Roles we recruit for include:

- Commercial Directors
- Commercial Managers
- Cost Engineers
- Senior Quantity Surveyors
- Quantity Surveyors

For the majority of the aforementioned roles, candidates will also be members of the Royal Institute of Chartered Surveyors.

## PLANNING

---

The key to a successful project is in the planning. Creating a project plan is the first thing you should do when undertaking any kind of project.

Often project planning is ignored in favour of getting on with the work. Many people, however, fail to realise the value of a project plan in saving time, money and many problems.

Roles which we recruit for include:

- Project Planning
- Programme Planning
- Planning Software Specialists
- Primavera Specialists

## ECONOMICS

---

This area is for consultants in the financial basis of engineering projects. With major projects needing a strong economic basis, economists are fundamental to the success of large projects which also requires knowledge of engineering techniques and an understanding of project requirements.

Roles we recruit for include:

- Economists
- Senior Economists
- Economic Policy Specialists
- Macro-Economists
- Mathematical Economics
- Economic Modellers
